

Description	Method + Path	Request / Response
Login to server	POST /Ci/Auth/login	Request: { "u_email": string, "u_pass": string } Response: { "success": boolean, "u_id": integer, "u_name" : string , "u_role": string }
Logout from server	POST /Ci/Auth/logout	Request: { "u_email": string, "u_pass": string } Response: { "success": boolean }
Check if user is logged in	GET /Ci/Auth/isLoggedIn	Response: { "isLoggedIn": boolean, "u_id": integer, "u_name" : string , "u_role": string }
Create new user	POST /Ci/Auth/register	Request: { "u_name" : string , "u_role" : string , "u_phone" : string , "u_email": string, "u_pass": string } Response: { "success": boolean }
Get all users	GET /Ci/Users/show	Response: Data:[{ "u_name" : string , "u_id": integer, "u_role" : string , "u_phone" : string , "u_email": string, "u_pass": string, "u_registration": timestamp }]]
Get specific user	GET /Ci/Users/show/{u_id}:integer	Response: Data:[{ "u_name" : string ,

		<pre>"u_id": integer, "u_role" : string , "u_phone" : string , "u_email":string, "u_pass": string, "u_registration":timestamp }]</pre>
Update specific user	PUT /Ci/Users/put/{u_id}:integer	Request: <pre>{ "u_name" : string , "u_id": integer, "u_role" : string , "u_phone" : string , "u_email":string, "u_pass": string }</pre> Response: boolean
Delete specific user	DELETE /Ci/Users/delete/{u_id}:integer	Response: boolean
Create new course	POST /Ci/courses/post	Request: <pre>{ "c_description" : string , "c_name" : string }</pre> Response: boolean
Get all courses	GET /Ci/Courses/show	Response: Data:[<pre>{ "c_name" : string , "c_id": integer, "c_description" : string , "c_image" : string }</pre>]
Get specific course	GET /Ci/Courses/show/{c_id}:integer	Response: Data:[<pre>{ "c_name" : string , "c_id": integer, "c_description" : string , "c_image" : string }</pre>]
Update specific course	PUT /Ci/Courses/put/{c_id}:integer	Request: <pre>{</pre>

	er	<pre>"c_name" : string , "c_id": integer, "c_description" : string , "c_image" : string }</pre> Response: boolean
Delete specific course	DELETE /Ci/Courses/delete/{c_id}:integer	Response: boolean
Create new student	POST /Ci/Students/post	Request: <pre>{"s_name" : string , "s_phone" : string , "s_email":string}</pre> Response: <pre>{ dbAnswer:boolean, lastStudentId:integer }</pre>
Get all students	GET /Ci/Students/show	Response: Data:[{ "s_name" : string , "s_id": integer, "s_phone" : string , "s_email" : string, "s_image" : string, "s_registration":timestamp }]
Get specific student	GET /Ci/Students/show/{s_id}:integer	Response: Data:[{ "s_name" : string , "s_id": integer, "s_phone" : string , "s_email" : string, "s_image" : string, "s_registration":timestamp }]
Update specific course	PUT /Ci/Students/put/{c_id}:integer	Request: <pre>{ "s_name" : string , "s_id": integer, "s_phone" : string ,</pre>

		"s_email" : string, "s_image" : string, "s_registration":timestamp } Response: boolean
Delete specific student	DELETE /Ci/Students/delete/{s_id}:integer	Response: boolean
Create new enrollment	POST /Ci/Enrollments/post	Request: { "e_id":[index:integer], "s_id":integer } Response: [index:boolean]
Get all enrollments	GET /Ci/Enrollments/show	Response: Data:[{ "e_id": integer, "s_id" : integer, "c_id" : integer, "e_date": timestamp, }]
Get all enrollments for a specific student	GET /Ci/Enrollments/show/{s_id}:integer	Response: Data:[{ "e_id": integer, "s_id" : integer, "c_id" : integer, "e_date": timestamp, }]
Get all enrollments for a specific course	GET /Ci/Enrollments/eShow/{c_id}:integer	Response: Data:[{ "e_id": integer, "s_id" : integer, "c_id" : integer, "e_date": timestamp, }

]
Get the amount of enrollments for a specific course	GET /Ci/Enrollments/count/{c_id}: integer	Response: integer
Delete specific enrollment	DELETE /Ci/Enrollments/delete/{e_id} :integer	Response: boolean
